The header features the title 'CITADEL 7' in a large, stylized, metallic font with a glowing blue and white outline. Below it, the subtitle 'ENTER - THE - SUPERVERSE' is written in a smaller, spaced-out, white font. The background is a cosmic scene with a blue and white nebula on the left and a brown, rocky planet on the right.

## CITADEL 7 SERIES OVERVIEW

**Nutshell;** In development since 2008, as a whole, the Citadel 7 Series follows the adventures of Superverse warden Commander Ben Bloch and his struggle to prevent the total collapse of the time space continuum.

**Large perspective;** Citadel 7 is the life story of commander Ben Bloch and his small band of unimaginable and unorthodox allies who step up to ensure existence does not implode at the hands of a great intelligence obsessed with only one objective, perfection. It is up to Ben and his crew to ensure all life across the time space continuum is not erased for an alternate beginning.

**Ben's dark secret and journeys** see him takes part in volatile battles between various superverse races either side of the mortal incorporeal divide known as the superverse. As trials of courage and challenging intercosmos alliances form, Ben is driven to recognize that he has a major part to play in events determining the fate of, not just the worlds and realms within the time space continuum, but the survival of all existence.

**Publisher's insider note;** Zero, oldest of the Evercycles who are creators of superverse existence, is dissatisfied with multiverse evolution perfection and intends a full existence reset. Divided and deceived by Zero, remaining Evercycle Council members manipulate the mortal-ethereal Continuum for independent aims, and soon enough, war for dominance breaks out across the intercosmos.

### About The Author

As a young Australian adult Yuan Jur served a term in the Australian military. Post that time he sought the solitude of monastic life as a Buddhist monk. He was eventually promoted to abbot and theologian in Buddhism's warrior-caste arm known in the West as Zen. As a senior theologian, Yuan Jur studied many belief systems, doctrine and ideology from around the world and taught through storytelling. During those decades, he also gained a master's degree in Chinese martial arts and medieval weaponry.

**End 2007;**After a life threatening illness ended his monastic career, Yuan Jur applied knowledge gained from decades of study in both life-immersing paths with a love of Sci fi/ alternate world fantasy to become a Sci-Fi/ alternate worlds author for adults. His aim was to construct a totally new and immersive multiverse experience for readers, using a space time continuum and interdimensional environments as the foundation for the characters to experience life through. That endeavor resulted in his original Sci Fi Superverse series called Citadel 7, which as of 2013 encompassed the prequel novel trilogy called Earth's Secret (1st place Sci fi Cygnus award 2013) followed by novels Allies in Anarchy part 1&2 and Gates of Wrath.

## CITADEL 7 SERIES DETAILED OVERVIEW

The Citadel 7 Series, written by Yuan Jur, has been in constant development since 2008. Each novel resides within what I have termed the “Superverse,” where sentient beings both mortal and incorporeal evolve from one incarnation to another as part of the time-space “Continuum” comprising both ethereal and mortal worlds. The series begins with the Earth’s Secret Trilogy which won outright 1st place in the 2013 American Chanticleer Blue Ribbon Cygnus awards for Science fiction.

Now a fully edited and proofed trilogy for publication, Citadel 7 Earth’s Secret trilogy is set to launch the ten other titles that follow in the series. Six of the thirteen titles in all are completed polished works. Each of the stories in the initial trilogy has been edited by specialist Sci/ fi editor Mr. John David Kudrick, based in the United States.

While all the stories are first and foremost sci-fi/fantasy tales, they also heavily weave in threads of adventure and military action. Much of my novel series’ foundation comes from my thirty-five years of experience as an abbot and theologian in a warrior-caste arm of Buddhism known as Zen. In addition, knowledge from my master’s degree in Chinese martial arts and medieval weaponry has also been woven into the series.

The citadel 7 focus group of 25 beta readers have expressed that elements of Citael 7 remind them of novels such as: The Mote in God’s Eye by Larry Niven and Jerry Pournelle, The Atrocity Archives by Charles Stross and long standing TV series such as Doctor Who and Fire Fly. The Earth’s Secret trilogy titles are: Enemy of Existence (~91,000 words), Truth and War Tales (~99,000), and A Test of Good and Evil (~106,000).

Additionally, since 2009, I have had a strong online presence, including a high-end website: [www.Citadel7online.com](http://www.Citadel7online.com). The site features a comprehensive portfolio of professionally developed character art and environments encountered in the series and a premium animated book trailer accompanied by an original music score and theme. Two Facebook pages are also established: one for marketing the book series and one as the author.

C7’s professional artist Dai Cameron has created a brand identity for the series, which is intended to be used across the board for the series.

Finally, professional screenwriters Ngaire O’Leary and Yuan Jur have developed a full treatment and screenplay for a premium TV series focusing on the Earth’s Secret Trilogy.

Beyond Earth’s Secret; The next two Citadel 7 titles of Allies in Anarchy pt 1&2 (~108k) (Now a Cygnus award finalist 2014) and Gates of Wrath (~119,500k) in end edit process. Beyond that, eight more titles have already been conceived and outlined. Book 7 Ann Mac Celestial huntress begins production 2015.

## AUTHOR BIOGRAPHY

As a young Australian adult Yuan Jur served a term in the Australian military. Post that time he sought the solitude of monastic life as a Buddhist monk. He was eventually promoted to abbot and theologian in Buddhism's warrior-caste arm known in the West as Zen. As a senior theologian, Yuan Jur studied many belief systems, doctrine and ideology from around the world and taught through storytelling. During those decades, he also gained a master's degree in Chinese martial arts and medieval weaponry.

Late 2007; After a life threatening illness ended his monastic career, Yuan Jur applied knowledge gained from decades of study in both life-immersing paths with a love of Sci fi/ alternate world fantasy to become a Sci-Fi/ alternate worlds author for adults. His aim was to construct a totally new and immersive multiverse experience for readers, using a space time continuum and interdimensional environments as the foundation for the characters to experience life through. The continuing work resulted in an original Sci Fi Superverse series called Citadel 7.

2010 2012 Citadel 7 encompassed an initial novel trilogy called Earth's Secret.

2012; Joined the Australian society of authors.

2013; attended by invitation the International Algonkian Writers Conference San Francisco.

2013; Citadel 7 Earth's Secret wins 1st place in the US Chanticleer writing competition Sci fi Cygnus award

2014; Allies in anarchy makes finalist list for Chanticleer Cygnus Awards 2014 (contest outcome TBA)

## EARTH'S SECRET TRILOGY

WINNER - 2013 CHANTICLEER  
SCIENCE FICTION CYGNUS AWARD

Earth Secret trilogy; Enemy of Existence— traces young Ben Blochentackle's introduction to the superverse in his present incarnation as an Australian youth in the mid 1960s. In this present he meets his beyond Earth mentors just before the horrific death of his father.

The two strange characters called Uniss and Dogg offer Ben an adventure to uphold justice and explore the intercosmos. Ben accepts and his mentors take him on a start up mission to defeat a corrupt omnipotent being called Herrex who is their initial threat to the collapse of all existence. What he doesn't realize is— his own dark secret is the key to the entire outcome.

Ben is first introduced to realms and worlds beyond Earth while being trained as a profiler (a warden of the Superverse Continuum). He ignorantly carries a far past secret of his own that threatens existence. A secret his enemies are aware of and one they desire for their own machinations. By Enemy of Existence end— Ben has had several life threatening situations and the kindling of a lifelong love interest that has far reaching consequences for both allies and enemy alike. He must adapt to the treacherous life as an intercosmos warden's apprentice of the superverse, while adjusting to an alliance with a fearsome mortal warrior race called the Scarzen, who are ultimately his greatest teachers. With his new allies, Ben must ensure Herrex's resurrection on planet Tora fails while avoiding being captured by a cunning and diabolical agent of their nemesis called Starlin. To achieve this, his sacrifices and choices are never straight forward and always have a cost. Enemy of Existence has a cliff hanger finish and sees Ben only just escape from Starlin's clutches with his mentors in peril. From there we step into book 2 of the Earth's Secret trilogy, Truth and War Tales, where the emerging on-world inter race war and Herrex's imminent resurrection starts from page one. By Trilogies end in A Test of Good and Evil, Ben emerges as a true commander and warden of the superverse intercosmos. It is then in Citadel 7 Book 4 called Allies in Anarchy that his greater adventures are laid before him aboard the Maxalon interverse carrier Cagney.

With intense battles, interspecies friendships, universal upheaval, original technology, and internal emotional struggles for Commander Bloch and his crew, Citadel 7 novels are stories that will resonate with fans of contemporary sci-fi/fantasy anywhere.

## QUALL ASSASSIN CROSSFIRE

Citadel 7 book series follows the adventures of Superverse warden Commander Ben Bloch and his struggle to prevent the total collapse of the time space continuum.

Quall assassin's Crossfire is a first window into that superverse.

Talaza Bane is a Quall Assassin of some repute. His place on his world and clan is clear and uncomplicated, but his bones tell him that is about to change after seeing the star lord's landing craft. Talaza's bones are never wrong. As with the oncoming of a great tidal wave, all catastrophe begins with the smallest shift in ordinary circumstance.

For those paying attention it is perhaps only the slightest of feeling something is amiss, but the signs are there. It is on planet Tora on Talaza's hunting ground only days before the arrival of the stranger he has been forewarned of, that events are set in motion to ensure the time space continuum can never recover from its intended course of destruction.

As a prequel to Citadel 7's big story (Earth's Secret), through Talaza's experience we meet pivotal individuals on one collision course whose choices will have a direct impact for the stranger and the cataclysm coming, not just on Tora, but all existence.

### About The Author

## REVIEWS

Vastly more original and intriguing than Game of Thrones, more mature and engaging than either Harry Potter or Star Wars, the Citadel 7 series is, I believe, destined to become the “next big thing”! After thoroughly enjoying Book 1 of Citadel 7’s series: Earth’s Secret, I eagerly anticipated Book 2 Allies in Anarchy. Second in the foundation trilogy, AIA immersed me in its visceral world environments, again inviting me to continue sharing the journey with characters I had come to love.

- NIGEL COOK

I only occasionally read fantasy fiction, but thoroughly enjoyed the odyssey through Yuan Jur’s rich and vibrant worlds, populated with races and beings that are dizzyingly imagined, yet so richly detailed that they become familiar and natural to the reader. Citadel 7: Earth’s Secret’s particular strength is its enormous scope.

- VINCE FOG

Citadel 7: Earth’s Secret has earned its place on my bookshelf. I have read too many fantasy novels that have left me underwhelmed: clichéd characters, two-dimensional worlds, linear plotting. It always frustrates me, and I never keep the book. Citadel 7 is different. The characters are unique and diverse, and have complex personalities and agendas.

- MATT LAMB

If the worth of a book is to be judged by whether or not the reader can tear themselves away from it, then Citadel Seven by Yuan Jur rates right up there with the best page turners. The depth of the characters, the breadth of the settings, the pace of the story, the twists and turns that you don’t see coming, but when they arrive you “know” they could be no other way make this book something special. At the end you are left satisfied, yet wanting to know more. I can’t wait until the next book is finished!

- SUSANA SABINE MSS

Being an avid fantasy reader for many years, I was surprised to find an author in Yuan Jur that could spark new interest in the genre for me. His engaging style, originality and depth in his universe, and strongly detailed plot and characters are a breath of fresh air in a genre (fantasy fiction) that at times has seemed increasingly stale in recent years. Yuan Jur allows the reader to fully delve into his Citadel Seven universe (and beyond), providing insights into profound concepts through an entertaining cast of characters, choices and locations.
